THE NATIONAL REPUBLICAN.

WASHINGTON, D. C., JULY 16, 1881.

A KEOKUK GIRL. The girl from the country came down With her Keelenk bonnet and gown: From her lown his abs came in on a "tear": "Maxima said I must see the buil town."

There was cream in the freezer so clean, And a girl at the table, I ween.

She grabbed the sponge cake like a patent steam rake.

And the bill would have staggered Jim Keene.

Though she's gone back to Keokuk now,
Though with ice—ream she's fitted up somehow.
Il come back in the fall and for fried oysters call,
But I'll be then in the far-off foscow,
—G. B. Corkhill.

WATERMELONS.

-All the young ladies say that a confectionery store is the coolest pince on earth during the heated term. Green cucumbers are not connected

with any secret society, but they can teach you many grips and sigh'n's. Speaking of the White House bulletins, the Bulletin observes that one bullet-out would be worth all their bullet-ins.

-"One thousand stocking-makers of Chemnitz, Saxony, are coming to this country."
If this is not a yarn, there must be something on foot.—Norristown Herald. -Never laugh at a countryman when

you see him making blunders as be comes into the city. When you get off at a country station you are the object of a great deal of anusement. —One of the rules of a bicycle club reads: "A horse should never be passed on both sides at once." We suspect that when a bicycler attempts to pass on both sides of a horse "at once he is expelled from the club. He would certainly be dismissed from a temperature organization.—Norrisonen Herold.

When we think of what these poor fellows have to endure, their exposure to a broll-ing ann without umbrelles; when we reflect that there are no ratious of lemonade, no lee-cream handed around on irray, no maidens fair to fur these noble brows, it causes us the profoundest

How Official Stealing Is Done, Here's Tom Jones. He's a member of Congress and the chairman of the committee. He tells his messenger or his clerk to have "that desk" sent to his house; he has so much writing to do at night that he must have it. Do you think that desk gets back to the Capitol when that man leaves Congress? Not much. Then Dick Roe is a chief clerk somewhere. A handsome drop-light, worth \$20 or \$30, perhaps, is his effect He are to his reservoir. "Henry is in his office. He says to his messenger: "Henry, take that drop-light to my house. I have got to use it for a week or two, and then you can icicle it back." Does it ever get back, though? Hardly! Then a Congressman may have in his committee-room a \$100 clock. At the close of the session he orders the clock to be sent to his house. "for fear somebody may steal it during the recess." Does that clock ever tick in that committee-room again? Not a tick! Another way. Jack Doe is the head of a Department. He commands unlimited servants, called mes-sengers. He tells a handsome colored man to go to his house and stay for a day or two until he can find a servant. Do you suppose that officer ever really finds a suitable man? Never? There is a cabinetmaker in nearly every Department. How easy it is for the Cabinet member to tell the rabinetmaker that he wants a certain thing made. Wou't you please do it (I cent find anybody else who can suit me), and keep the account, and I will pay for the lumber, for your time, &c." Does that Cabinet officer ever get an account? No, sir !—

The Boston Young Woman.

An aged gentleman from the country whose own walk is as honest and sturdy as his conversation, was much amuzed yesterday at beholding the appearance of a Boston young lady. The fair creature descended from a horse-car almost at his feet, testered lightly on her tees thrice.

Doubling the appearance of a Boston young lady. The dif creature descended from a horse-car almost at his feet, testered lightly on her toes thrice, adjusted her arms like the plumed extremities of a trussed fowl, permitted ther hands to fangle as do the forepaws of a kungaro, and sailed down the street with a sort of a willow; whole which set he head to bobbling after the feshion of a Chinesed oil, her eyes the white being set and anxious, and her whole appearance suggestive of a dislocation and distress. And when one of our gilded youth, in a coast with no tails to speak of, and a hall life soup pinter cocked over his left eye, started at the with a man and legs forming segments of circles, after the approved traditions of the 'chicken, walk,' he remarked that hed be revised if he could understand what had got into these city folks.—Boston Journal.

Civil Engineers in the Navy.

The Secretary of the Navy has prescribed the following regulations to govern the appointment of civil engineers in the United Sistes navy: Candidates shall be between the appointment of civil engineers in the United Sistes navy: Candidates shall be between the ages of twonty-five and thirty-seven years, and will be required to pass a satisfactory physical examination before a medical board, also a professional examination. Applicants desiring to be examined must apply to the Secretary of the Navy in time to appear by the last of Soptember next Good moral character, evidence of American citi. Zenship and of professional knowledge of two years' experience will be required to pass a satisfactory physical examination before a medical board, also a professional examination before a medical board, also a professional will be accordingly.

The Abbott Kliss a Hellow Rockery.

"I have no time to correct every little crumor or paragraph that is written about me. Now, there's the finma Abbott kins, for instance, what a silly thing that is! There is really in the accordingly.

The Year 1881.
There is a peculiarity about this year which Mother Shipton never thought of. its num-ber is more reversible than any paper collar ever invented. Write it on a piece of transparent paper 1881, and hold it up to the light. No matter which side up you hold it, nor whether you have the front or the back of the paper toward you, you can make nothing of it but 1811. No year has enjoyed this peculiar distinction since 1111, and no other will enjoy it until \$118. The year 1691 could be turned wrong side up without spilling, and so can 1961; but neither will bearlooking at from behind. Has the comet anything to do with it?

Franky, My Sou, My Son ! Frank Hurd and his followers got the Democrats of Ohio, at their State convention yesterday, pretly close up to a free-trade basis, but, just as Frank and Jim Steedman and a few others had lifted until their eyes bugged out, and were thinking they were about to make it, some of the underpinning gave way, and Frank and Jim and their plank all went down into the dust "caslump," Frank and Jim have not crawled ou, from under the *libris* yet. When they do the revisers will wish they had consulted the boys before they finished their lask.

"What!" shouted a North Hill orator, in a burst of fervid cothusiasm. "What was Bur-lington twenty-five years ago?" And a thite man with a despairing countenance got up in the au-dience and replied, feebly, "Burington, wasn't it". And then the orator said he hoped that his cleave might roof to the tongue of his right hand if he over went into caucus with such a lunand.—

I respectfully call your attention to TURCK'S DIA-MONDINDESTRUCTIBLE DRAFFING INK. This lak has the following advantages over all other draft-ing finks hereisdors used:

1. It produces a clean, evon line, and does not "wash off," thus enabling the draughtsman to color his me-chanical drawings without danger of the lines " run-line." chanical drawings without danger of the lines "runling."

2. It being ready for immediate use, it obviates the
tedious work of "rubbing up" int, thus saving much
time and labor.

2. Being composed of indestructible material of a
dense, black color, which makes a durable drawing
and a perfect photographic copy.

4. The Ink containing meachd ratkall, prevents any
danger of electrocitor to drawing utomsite or paper.

I refer you to the U. R. Patont Office, Generical Land
Office, Interior Department, Architect's Office, Treadurr Department, and all other Departments of the U.
